EXPERIENCE

Solstice Consulting | DevOps & Cloud Developer | Aug 2017 - present

Worked with Fortune 500 companies to migrate their legacy applications and infrastructure to the cloud. Designed and developed CI/CD processes to vastly improve development and production deployment.

App Factory | Full-Stack Web Developer | Oct 2015 - Aug 2017

Design and develop all things web related in various technologies. Aid team members in all web related tasks or projects. Agile/Scrum driven software development environment. Team lead and mentor. Designed and developed REST APIs for mobile apps.

OPEN SOURCE

Android SMS Backup Reader (ASBR)

https://github.com/ciscoo/asbr

A small package for Go to aid parsing SMS backups produced from SyncTech's Android SMS backup app. Provides functionality to unmarshal XML to native Go structs and persist base64 data to disk.

EDUCATION

University of Wisconsin Parkside

Bachelor of Science in Computer Science

Web Development Minor

Unix System Administration Certificate
